This is the Dark Souls of quidditch-based games.. Another winner from BrainGoodGames. If you haven't played one of theirs before, they use simple rulesets to create enjoyable puzzle games that gradually get more difficult as you repeatedly win. They are basically a mix between Minesweeper-esque solitaire and modern boardgames. In this game you are trying to score enough victory points to win before an endless horde of baddies, with the help of some cards.

The basic game feels very similar to their earlier game, Militia, though based more on Tash-Kalar than Chess.. This garbage freezes whenever i enter a skirmish. trying to access the menus to do anything during the game starts a seperate game which then freezes and crashes the entire thing. i had to relaunch the game no less than 8 times to accumulate the 5 minutes of gameplay I needed to review this garbage and warn you guys. Not worth it for any price.. Pro's

- A good foundation for a future game.
- Movement and controls seem smooth
- Have not run into any crashing or issues
- Decent graphics

Cons

- Lack of variety. What there is looks rather lame.
- Customer voices sound like Microsoft Sam.
- Rather steep price for what you get
- Clothing racks seem to have to be rather far places apart.
- poor customization when it comes to characters, only 2 hairstyles, faces, etc.
- Seems extremely hard to make a profit of any kind and no difficulty settings that I can see.

I've been looking for a game like this, but have wanted to see a game with general merchandise or grocery and modding capabilities much like the Sims 2 open for business was. But no game seems to be able to match it. Not very interested in selling clothing but if this game expands with more customization options and items to sell it could be a great game.. a gonzo christian bullet-hell shmup. i can't promise you will like it, but i can promise it is the strangest thing you will ever buy on steam, and that it is a hell of a thing.. I heard about the rave reviews this game had, and I was excited to try it. I also spent many years working in government, and a lot of that time was checking documents to find forgeries and mistakes. I will say the game's portrayal of document checking is fairly realistic. Unfortunately it's a little bit too realistic for me, and it just feels too much like doing work. The game gets an A+ for how accurately it recreates what government workers do when they check documents, and it deserves bonus points for convincing people document checking can be a fun game with emotional highs and lows instead of tedious, soul-crushing, drudge work. Ultimately though, I can't recommend the game, even if I can see why others might like it. I could barely stand playing this game when I was being paid money to do it, and for me it's even less fun doing a computer simulation of it for free.

And to any other government workers out there who think they might be really good at this game because they already do this all day and every day at work, don't get this game. There are better things you could be doing with your precious free time. You know this. Go do that instead.. Looks so cool!. This game was a waste of money. Too short, too dull and not worth a dollar..... This is easily the best visual novel I've ever read (Don't watch the anime. It actually sucks\u2665\u2665\u2665\u2665\u2665and rips away all of tension and character development from the VN. Just don't do it, trust me.)
